

## TRANSIT HEARINGS OFF UNTIL NOV. 10 TO AVOID POLITICS

Unwilling to Let Commission  
Plan Be Made a Football in  
Mayoralty Campaign.

The Transit Commission has today announced the postponement of public hearings until after election, giving as a reason unwillingness to have political capital made of the commission's work toward the solution of the traction problem.

"There has been a pronounced disposition in some quarters to make the transit plan a football of politics, employing prejudiced misrepresentation and abuse in place of dispassionate inquiry," the commission's statement said. "It has become increasingly evident that such an attitude makes it futile to attempt to develop the plan through the medium of the examinations proposed while the campaign is on."

The hearings at which officials of the street railroads will be called were scheduled to begin this week. The first hearing, the commission announced, has been put off until Nov. 10. It was explained that the hearings are for the purpose of developing constructive criticism and information for the final plan which the commission is now working out.

"The outline of the plan," the commission said, "published by the commission at the end of September was given out at the earliest date at which it could be completed in order to inform the public of the progress made and to furnish a basis for study in advance of the hearings. The reception given the report by the press and the discussion that has followed have been gratifying. Much of the criticism has been constructive and of a helpful tendency."

### CLAIMS DISCOVERY OF SMALLPOX GERM

Chilean Bacteriologist Expects to  
Send Culture Here in Month.  
SANTIAGO, Chile, Oct. 18.—Discovery of the long-sought germ of smallpox has been claimed here by Dr. Arturo Atria, leading South American bacteriologist, who has been working for some time among the victims of the epidemic here.

Other prominent South American physicians believe in Dr. Atria's discovery and that it will help to wipe out the plague in Chile. The discoverer expected to have his microbe culture ready to send to the United States and Europe within thirty days.

## DUB ANTI-GAMBLING MEASURES A BAR TO FREEDOM OF PRESS

Walsh's Amendment and Sterling's  
Substitute to Hit  
Snag in Senate.

WASHINGTON, Oct. 18.—Prominent members of the Senate Committee on Post Office and Post Roads today manifested keen interest in the Walsh amendment to the Ramseyer anti-lottery bill and asserted that undoubtedly it would bar the news of betting odds on baseball, horse racing and other physical contests from the newspapers, if enacted.

"It would stop newspapers from printing the results of wagers on baseball games as well as horse races and prize fights, and I am dead opposed to it," said Senator Moses of New Hampshire. "I do not believe it stands any show in the Senate."

Senator Sterling, a member of the committee that will consider the Walsh amendment before it goes to the Senate Chamber, if it ever does, said, after reading the provision

passed by the House, he is sure "it precludes the giving of news of odds of money lost or won on horse races, baseball and other tests of physical strength and endurance. The Walsh bill not only prohibits the giving of advice or suggestions as to the betting odds on such events, but the outcome or result."

When the measure is taken up by the Committee on Post Office and Post Roads, Mr. Sterling will offer as a substitute his Anti-Gambling Bill, which is but slightly less drastic.

The Sterling bill would be stoutly opposed by the liberal group in the Senate. It was said today it has no more show than the Walsh amendment.

Senator Overman of North Carolina, prominent Democratic member of the committee on Judiciary, said the Senate would not accept any amendment that tries to control news matter.

"A distinction between news and advertisement is a matter of fact," said Overman. "We cannot interfere with the freedom of the press, even about a lottery. Let the news come out."

Many moral reform organizations are working for the Ramseyer Anti-Lottery Bill, but they did not have a chance at the Walsh amendment for it was tucked through without any warning to friends or opponents of such legislation.

## MOVE TO NAME PLAZA FOR COL. ROOSEVELT

Alderman Falconer Will Introduce  
Resolution to Be Read To-Day.

Alderman Bruce M. Falconer will introduce in the Board of Aldermen today a resolution to change the name of the plaza at Fifth Avenue and 95th Street to Roosevelt Plaza, or Roosevelt Square. This will be the third suggestion for honoring the name of Roosevelt. The movement to name some public park or square in this city after him started last spring when Alderman E. Carden introduced a resolution to change the name of Herald Square to Bennett square, and Mayor Hylan sent a communication to the Board suggesting that the name of Roosevelt be substituted.

Later a resolution was introduced to change the name of Manhattan Park—really a part of Central Park just south of the Metropolitan Museum of Art—to Roosevelt Park.

## Before Miss Thomas Married—

Boott Toweling is 18 inches wide  
and in 25 or 10 yard bolts.

She knew she would need plenty of towels in her new home. She looked at many materials and found that Boott Toweling was absorbent, bright-white, full-bodied, and priced so that she could buy it by the bolt and have plenty of towels.

She bought two bolts of Boott Toweling and made four dozen towels. She called them her everyday towels, but they stand the wear so well and are so practical that they are all she uses now.

They dry the skin quickly and thoroughly. They launder easily and come out like new.

Buy it by the bolt from your dealer. If he cannot supply you, write us.
